

I welcome you to CORCON-2023 being held from 25-28 October at Hotel Sahara Star, Mumbai.

Growth and progress in our industry is anticipated as we encourage new development in corrosion control, support important initiatives, expand our global presence and increase awareness about the critical need for corrosion control systems in every country and industry. Participation in CORCON has been increasing significantly through the years. We need to convince all stakeholders, including our Government that controlling corrosion is not only saves money but also saves lives. In this regard, AMPP's Educational Programs, Certification and Standards are the most sought after corrosion resources utilized globally.

Our India Chapter is very active and it's due to the passion and commitment of our volunteer members that we are able to put together programs that are so well appreciated and beneficial to all.

CORCON-2023 will facilitate technical information exchange and interactions with our corrosion professionals. This together with the exhibition has become a Premier Corrosion Event. Please make most of this excellent opportunity to meet fellow delegates, AMPP officers and members.

I am sure you will find CORCON-2023 Conference & Exhibition both valuable and enjoyable.

I wish all the participants a very enjoyable time at CORCON-2023 Conference and Exhibition!!

Congratulations to all the award winners !
