Hosted by

Upskilling Partner

AMPP: The Association for Materials Protection & Performance

“A Safer, Protected, and Sustainable World”

AMPP represents the largest global community of corrosion and protective coatings professionals. Our members are dedicated to advancing technical and practical expertise in corrosion prevention and control. AMPP provides members with the knowledge and resources to ensure high performance materials are used to build and maintain sustainable infrastructure.

AMPP protects infrastructure and assets worldwide through member and workforce education and credentialing, company accreditation, technological innovation, and global standardization.

AMPP INDIA CHAPTER

AMPP India Chapter (hosted by NACE International India Section (NIIS)) was established in 1992. AMPP India Chapter is one of the largest and most active sections of AMPP through its significant efforts for the promotion of corrosion awareness, protection and control of corrosion in India. With over 1000 members, AMPP India Chapter has organized over 220 certification courses on CIP Level 1, Level 2, Peer Review, CIP 2 Emphasis, Nuclear Power Plant course, O-CAT, PCS 2, Basic Corrosion, Direct Assessment, Internal Corrosion for Pipeline, Refinery Corrosion and Cathodic Protection 1, 2 & 3 of AMPP. It has also organized more than 275 educational corrosion awareness programs and hosted 31 annual corrosion conferences. To commemorate Corrosion Awareness Day, AMPP India Chapter awards individuals and institutions for their contributions to corrosion awareness and developments in the field of corrosion science and technology. The AMPP India Chapter sponsors five student chapters. AMPP student chapters had organized “CORSYM” international corrosion conference for students. AMPP is committed to enhance the quality and range of its services and activities in the field of corrosion awareness and dissemination of knowledge on corrosion, its protection and control in India and worldwide.

CORCON: (Corrosion Conference & Expo)

The world is rapidly moving towards developing sustainable infrastructure with the focus on corrosion free materials for effective optimizing corrosion controls and reduction in lifecycle costs. Corrosion-control and mitigation at the initial design and construction stage of assets is more rewarding in the long run-in terms of increased safety, performance, asset life, environment protection and operational cost-effectiveness. Overall, the global cost of corrosion is estimated to be in trillions. In India corrosion is believed to impact approx. 4% of the country's GDP and the ever-growing environmental threat calls for urgent and appropriate measures.

CORCON, the annual conference and expo on corrosion science and engineering held in India, is the largest event of its kind in Asia, attracting participation from academic and research institutions, public and private sector organizations including defense establishments and professionals. This event offers an excellent platform for exchange of information on matters concerning corrosion, learning about existing and upcoming products and technologies and networking. As the world faces more and more challenges with ageing infrastructure, it is imperative for advocates of corrosion mitigation to unite and address the problem. Each year over 1000 industry leaders from around the world come together at CORCON, in an effort to tackle corrosion issues, and inform participants of the latest solutions and methods.

TECHNICAL PAPERS

AMPP India invites you to submit abstracts for presentations and share your expertise to advance your career and the industry by sharing your wealth of corrosion mitigation knowledge. This is your opportunity to be recognized for your knowledge by industry leaders from around the world. You are encouraged to submit your paper on the following topics:

SYMPOSIA TOPICS

- Cathodic & Anodic Protection
- Coatings Linings and Thermal Insulation
- Corrosion in Petrochemical, Refineries and Fertilizer Industry
- Corrosion in Oil and Gas Sector
- Corrosion Control in Water Treatment Utilities
- Microbial Corrosion & Inhibitors
- Materials and Composites
- Direct Assessment Methodology Application
- Corrosion in Concrete and Infrastructure
- Corrosion Monitoring and Testing
- Corrosion in Defence Sector
- Corrosion in Nuclear Industry, Power Plant and Utilities
- Corrosion and its Mitigation in Renewable Energy Sector
- Marine Corrosion
- Young Students & Scientist Forum

Each Symposia will receive best paper award during the conference.

90 + Hours and over
250 papers on the latest in
corrosion mitigation

CONFERENCE HIGHLIGHTS

- Plenary and Keynote Talks
- Technical Interactive Forums
- Expo Showcasing the Latest Products

AREAS REPRESENTED

- Oil, Gas & Petrochemicals
- Maritime
- Power Generation & Utilities
- Highways & Bridges
- Chemical Process Industries
- Pipelines
- Defence

CORROSION MITIGATION TECHNOLOGY REPRESENTED

- Coatings
- Cathodic Protection
- Materials & Composites
- Inhibitors
- Inspection & Testing Equipment
- Material Selection & Design

BENEFITS

- Operators
- Service providers
- Consultants
- Engineers and Scientists
- Maintenance Managers
- QA/QC personnel
- Head of Plants
- Utility Heads/Managers

IMPORTANT DATES

Paper and poster proposals will be assessed by members of the Conference Program Committee for compliance with the criteria for acceptance. All submissions will be reviewed and you will be notified if your abstract is approved.

Abstract submission opens	1st March 2026
Abstracts due	30 th April 2026
Full Text Paper due	30 th June 2026
Presentation upload deadline	31 st August 2026
Registration deadline for Authors	31 st August 2026

Kindly upload the abstract through
the conference website www.corcon.org.

The presenting author must register as a delegate for
conference for inclusion of his / her papers in the technical
programme. For any technical paper related queries, please
email rishikesh@naceindia.org
Cell: +91 98204 59356
